Delhi (DEL) to Dubai (DXB)

:

A short-haul international route connecting

Delhi to Dubai

, popular with business travellers and the large Indian expatriate community in the UAE.

Best Time to Book Flights from India

No matter the route, flight booking fares usually rise around Diwali, Christmas, and other major regional festivals. If you plan to travel during these periods and want to get the best airfare deals

, it's best to book a little earlier than usual.

Domestic Routes

For domestic routes, it's better to book flights four to six weeks in advance; that's often the sweet spot. Tuesdays and Wednesdays are usually more affordable than weekends, and fares from July through September can be more affordable because demand tends to be lower.

Gulf & Middle East Routes

For Gulf and Middle East routes, try to book six to eight weeks ahead. Demand often spikes during Eid, summer holidays, and the year-end travel season, so early booking matters more on these routes.

Southeast Asia Routes

For destinations like Singapore, Bangkok, and Kuala Lumpur, booking two to three months in advance usually works best. This is especially true if your travel falls around an Indian festival period, when demand rises quickly.
